What is a toy? At Dolu Toys, we believe that all materials that shape the lives of children, by helping them improve their imaginations and develop mentally, physically, and psycho-socially, are toys.

Dolu' s toys assist in fulfilling a large portion of a child's pre-education cycle. They augment the natural imaginative abilities that accompany childhood, and help children improve their abilities of evaluation and consideration. In so doing this, Dolu Toys help children learn how to make choices, express themselves, and concentrate on the specific areas that they most enjoy. Dolu' s toys help children master shapes, dimensions, and colors, and they familiarize them with alphanumeric characters.

Dolu toys can be integral part of child development at a variety of stages and can, therefore, be used productively by children of different ages and different levels of intelligence. Dolu products are imaginative toys that teach children different ways of thinking, but they are also a vital part of a child' s social life. Our Company understands that playtime should be instructive as well as fun and we are proud to produce high-tech products that are educational and entertaining, dynamic and delightful.

Dolu Toys takes your child's safety seriously, and precaution is our priority. All Dolu products are tested in the prestigious toy-testing centers, TÜV-RHEINLAND and INTERTEK. For your child's safety and your piece of mind, we make sure all our toys meet or exceed European Union EN-71 safety standards, and that all of them carry CE Labels. Since 1975, Dolu has been manufacturing tricycles, baby walkers, trucks, educational toys, girls toys, pedal cars, pedal free cars, sports toys, swings and other plastic toys. Dolu uses state-of-the-art, high-tech, plastic injection and molding equipment in the production of all our toys. We operate in a 15.000 square meter closed and controlled environment and we employ over 100 well skilled employees. Our company exports 55% of its products to a number of countries across much of Europe, America, Africa, Australia and Asia, while distributing the other 55% at home, on the domestic market.

Firmamız 1976 yılında oyuncak sektöründe hizmet vermek amacıyla kurulmuştur. Dolu, oyuncak üreticisi olarak yurt içi ve yurt dışı pazar ağına ulaşmış üretim, pazarlama ve satış hizmetlerini dünya standartlarında gerçekleştirmektedir. Bugün 70 ülkeye toplam üretiminin %55'ini ihraç etmektedir.

Dolu, 36 aylıktan küçük çocuklar için ve 3 yaşından büyük çocuklar için oyuncak ve çocuk gereçleri üretiminde lider konumunu sürdürmektedir. Dolu, TS 5217, EN 71 standadına ve Sağlık Bakanlığı Oyuncak Yönetmeliğine uygun üretim yapmakta, çocuk sağlığına uygun hammadde ve yarı mamül kullanmaktadır. Dolu ürünleri uluslararası onaylı kuruluş olan TÜV Rheinland ve Intertek laboratuvarlarında test edilmiş olup CE işareti taşımaktadır.

Dolu, yurt içi ve yurt dışı alanda yukarıda bahsi geçen şekilde plastik oyuncak üretimi ile ilgili çalışmalarını bir kalite sistemi içerisinde gerçekleştirir. Şirketin ve müşterilerinin istekleri doğrultusunda, mevcut pazar ağı içerisinde stratejisini korumak ve müşteri memnuniyetini yakalamak amacıyla gerekli organizasyonları oluşturur, gerekli planlamayı yapar ve öngörülen ürün/hizmet üretir.
